

DEREVLON – Heavy Duty Spot Remover

Description

This product was formulated primarily for all industrial and institutional laundry operations, especially hotels, motels, schools and colleges, where removal of makeup, lipstick, mascara, etc. from towels and linens is a problem.

Fabric stain is a problem recurrent in all laundry operations. Soil and stain removal is primarily accomplished during the detergent and bleach operations of the wash cycle. However, not all staining substances can be effectively removed with detergent and chlorine bleach. Certain types and concentrations of stains may require the addition of special chemistry to facilitate removal during the laundry process.

This product removes following stains commonly found in launderable fabrics and carpets.

Inks	Hairspray	Baby Oil	Hair Dye
Sugars	Deodorants	Coffee & Tea	Cola & Juices
Grease	Grass Stains	Lipstick	Catsup
Pet Urine	Clay	Mascara	Mustard

Features

- Fast Acting
- Economical
- Very Effective
- Biodegradable

Use And Directions

FABRIC: Use this product undiluted and apply directly to stained area of fabric, preferably on both sides. Rub gently to insure thorough saturation of stain. Allow to set a few minutes to break stain-to-fabric bond. Follow with normal washing procedures.

CARPET: Apply directly to stain. Agitate and blot up with absorbent rag or towel.

Physical Properties

Physical Form:.....Liquid	Specific Gravity:.....1.012
Appearance:Clear	pH:12.5
Color:Clear	Evaporation Rate (Water =1):1
Fragrance:Mild Solvent	Flash Point:..... None
Water Solubility:..... Complete	

DE:259 - 0500
