

SPLASH - Liquid Hand Soap

Description

This product is a pH balanced soap designed primarily for the institutional, health care and food industries. It is gentle enough for frequent washings yet easily removes inks, tars, grease, oils, latex paints, and other difficult soils. SPLASH contains emollients and USP grade skin oils to soothe and soften the skin as it cleans. This soap rinses completely, leaving no residue and leaves hands fresh smelling.

Features

- Convenient 800 ml or gallon size
- Soothes Cracked, Dry Skin
- Ideal For Frequent Washings
- pH Balanced To Prevent Dermatitis
- Contains No Solvents - Environmentally Safe

Use And Directions

Wet hands and apply appropriate amount of product onto skin. Rub hands briskly to create lather. Rub in well, especially under fingernails. Rinse and dry hands.
