

## WIPE OUT – Non-Ammoniated, No Rinse Floor Stripper

### Description

This product is a radical new breakthrough in floor and baseboard wax stripping, allowing multiple layers of old wax and finish to be easily removed without rinsing and neutralizing, saving labor, time and material.

This product is non-ammoniated, and is ideal for hospitals, nursing homes or any area where harsh fumes cannot be tolerated. It is effective on all modern, high solid finishes and removes multiple layers with a single application.

### Features

- Saves Labor
- Extremely Effective
- No Rinsing or Neutralizing
- No Harsh Ammonia Fumes

### Use And Directions

1. Dilute with 4 to 5 parts, preferably lukewarm water.
2. Mop on and allow to stand for 5 minutes, keeping area well worked.
3. Scrub with stripping pad (black) and pick up with wet vac.
4. Damp mop any remaining residue with clean water and allow to dry thoroughly before applying finish.
5. If using automatic floor scrubber, apply and pick up in a “double scrubbing” operation. Work in an area that permits a 5 minute soak time before pick up.

### Physical Properties

Physical Form:..... Liquid	Specific Gravity:..... 1.00
Color:..... Orange	pH:..... 12.0-12.5
Fragrance:..... Glycol Ether	Evaporation Rate (Water =1):..... 1
Water Solubility:..... Soluble	Flash Point:..... None to Boil
